Local News

Telephone any interesting News

Mr C. M. McCarty and family returned last Monday night after a very pleasant month's visit with friends and relatives in Salt Lake City. We are very glad to hear that Wilson McCarty is making a huge success in his profession as a lawyer.

Last Monday afternoon the Chinese manager of the B. C. Cafe had one of our local boys up before the justice of peace. The boy was found guilty and sentenced to pay the cost and serve two days hard labor for the town.

Next Tuesday night at the home of T. W. Harris a wedding reception will be given to Ira Harris and wife. About 60 invitations have been issued.

There was a league basketball game between the 1st. and 2nd. wards at the K. A. Gym last Tuesday night. The second ward won both games scores respectively were Senior 37 to 20 and Junior 17 to 11.

The best Elite enameled ware one third off at the Merc.

Mr. J. F. Gordon returned from his surveying last night. He is going to spend most of his time in Lethbridge.

Owing to the principals not being in shape it is likely the 2nd ward basketball game scheduled for next Tuesday will be postponed.

The West-Henry Co. who have had such a good run at the Sauerma Theatre, in Lethbridge, plays here next Thursday night. This company comes very well recommended from the best of the theatres.

Good Vaudeville At Opera House.

The vaudeville show in the Opera House Monday night was a very high class entertainment. There was only a fair sized audience in attendance but those who were there were very well pleased with the clever performance of the troupe.

The tumbling of the acrobatic troupe was exceptionally good.

The Company was forced to eliminate some of their stunts owing to their not having their own accompanist.

The evening's program was rather short. Mrs. Rudolph Tollestrup, of Raymond, assisted very ably at the piano but she had no time in which to rehearse with them.

Marriage Prohibited

Without a proper license if you issue Marriage Licenses, tell the young folks about it in our Classified Ads. They all know a license is necessary, but they don't all know where to get one. This paper is popular with the young people.

FOUND.—A small purse, also a grey fur. Owner may obtain same by identifying it and paying for this ad. Apply at Leader office.

Last Sunday night the M. I. A.'s of the two wards held their annual conferences. Good sized audiences assembled to hear the splendid reports tendered in by the local ward officers. Members of the Stake Board were present at both meetings and spoke of M. I. A. work in general.

The Standing of the M. I. A. B.B. League

The following is the standing of the teams up to tonight,

Ry. 1st.	1	2	333	
Taher	0	2	000	

Bible Class Gives Social

The Social given by the 'Beavers' Bible Class of the Presbyterian Church, Raymond, on Wednesday evening was a decided success. Everyone was asked to come dressed in costume to represent a certain book, and the amusing, unique, and original costumes of some of the members was a means of much pleasure and amusement to the whole company. Over thirty members responded to the invitation and while all are worthy of mention, perhaps Mr. Thomas Allen in his characterization of 'Tony, the Tramp,' Mr. Alvin Amos in that of 'The Squire Man,' Mr. Bert Grand in 'The Sailor Lad,' Mrs. Alvin Amos representing 'The Holy Bible' and Miss Nilsson 'The Blue Bird' were most unique and original.

Mr. Mayson won the prize for the greatest number of correct guesses, and Mr. Bert Grand for the best costume.

An impromptu entertainment in which there were some excellent numbers, and an elaborate luncheon made up the rest of an evening's entertainment, which has not been surpassed for real pleasure and enjoyment, and perhaps seldom equalled in Raymond, which is famed for its splendid social functions.

The Adult Bible Class, known as the 'Beavers,' meet for Bible study every Sunday afternoon at three o'clock, and every Wednesday evening at 8 o'clock for mutual improvement and social enjoyment. The meetings are open to all and everybody is welcome.

I will tune your pianos, clean them regulate them and tone them for \$3.50 each. I have had forty-seven years practical experience.

FOR SALE.—First class Poland China Bowl, eight months of age ready for service now. Thirty dollars takes him.

Enquire, M. V. Croxall.

FOR SALE.—First class Marquis teed wheel apply,

H. Cammach.

Make the Farm Pay.

The winter snows are falling now;
The Merc is hanging low;
The people shiver as they plow
Their ways through drifts of snow.
They think of all the lovely days
They passed in summer time;
And wonder of the many ways
They spent their hard earned dimes.
The girl, the mother and the lad,
All sit around and say,
"We must do something this year. Dad
To make the old farm pay."
We've tried the wheat, and barley too,
And oats have had a show;
There's something else that we must do:
The price of grains' too low.
We've heard about the SUGAR BEET,
And think we ought to try
This crop as one to help us meet
The bills now piled so high.
They say that children do the work,
And wages good they make,
And learn to labor, not to shirk
Still more, good health they take.
The net results in coin we're told
Depends upon the way,
In which the farmer takes a hold,
And works his piece of clay.
Then let us raise the SUGAR BEET,
No question but the pay
Cause if we work the balance sheet
Will show a better day.

J. W. EVANS.

Sgd. J. A. Jackson.

L. J. S. C.

What We Are Doing At The K. A.

The student body is giving a dance in the Knight Academy Gym tonight. It to be one of the events of the season.

There is to be a grand turkey dinner, served by the Domestic Science Department Wednesday Jan. 28th. Open to the public. Covers will be laid for twentyfour guests and all those intending to come will please phone 117 as the number is limited. The cost will be 35c per plate. Come and enjoy the entertainment of the department and encourage the class.

Basket ball is now in full swing at the Academy and many games have been arranged for the team, which is developing fast. Games have been arranged with Lethbridge next Wednesday, Stirling Friday, and Magrath later. Return games will be played in the Academy Gym.

Victory rewarded Instructor Tanner and the basketball team last night. They defeated the 1st Ward team with the score of 12 to 8.

To the student body program next Wednesday at 9:45 a. m. the public is invited, after which all visitors will be welcome to visit the classes for two class periods, and then comes the turkey dinner in the domestic science department.

Pres. Bramwell and Instructor Walton returned to their Academy duties last Monday, having been away several days attending to Mrs. Bramwell, who is now on the high road to speedy recovery.

Second Ward to Put On Opera.

"The Chimes of Normandy" is the opera selected by J. F. Greenback, who is conductor of the 2nd ward opera Society to be presented for the benefit of the Raymond 2nd ward.

Nearly everyone has heard of or seen "The Chimes of Normandy" or the "Bells of Corneville".

The opera has been cast and although active work has been held back pending the arrival of the Opera books but now rehearsals will be rushed and it is expected the opera will be ready inside of a month.

The story of the opera is that a marquis is forced to leave his castle and leaves his niece in the hands of an old miser, and the legend of the village in which the castle is located, is that the long lost son returns the bells will ring and break the silence they have been silent for years and the castle is supposed to be haunted.

The son returns disguised as a peasant and falls in love with the ward of Gaspard the miser, who is called Germaine. It develops that another village maid, Serpette who is also a ward of Gaspard's, thinks she is the daughter of the Marquis but the Germaine is really to be the Marchioness and Henry announces himself as the Marquis, the long lost son and the Chimes ring and Gaspard's plans are frustrated.

Second Ward M. I. A. To Start Dramatics

The 2nd. Ward Mutual will likely be the first of home talent to launch into the field of dramatics this year.

The play which they will put on is entitled, "The Daughter of the Desert". The scene of which is laid in Arizona during the early days and several love stories are cleverly woven about the plot which is a battle of wits and weapons between a Mexican filibuster and an American Surveyor for the "Daughter of the Desert".

The dramatic strain is relieved by a good deal of comedy and the theatre goes will be assured of an evening's entertainment.

The casting and staging of the piece are in the competent hands of Mark V. Croxall and the date for playing will be next Friday, Jan. 30, with a matinee in the afternoon with popular prices prevailing.

Some new players will be seen in the cast which is comprised the following names.

Miss Roxie Rodeback, Geo. Court, Grant Young, Parley Christensen, Ruby Stevens, Will Rodeback, Bonnie Love, Linton Jeffery, Winona Ursenbach, and Earl Stevens.

Don't miss the first home dramatics of the season next Saturday night, Jan. 31st. "The Daughter of the Desert."

To Compete With United States Hog Buyers.

In 25 double-deck carloads of hogs were shipped to a Seattle packing house during the past week from Canada and has caused the Canadian farmer sit up and take notice of the fact that the American side, and particularly the Puget sound country offers him a splendid market for his stock. Here to fore the Swifts and the Burms have controlled the stock situation on the Canadian side and they have made it almost impossible for any one else to purchase hogs or beef in large numbers from the Canadian farmers.

Sometime ago Burns made the mistake of attempting to invade the Puget sound markets with the result that local packers concluded to here after do everything in their power to break into the Canadian hog and cattle market. The first attempt was successful and 25 double-deck carloads of five hogs reached Seattle recently in one shipment.

The independent beef packers on this side believe it is only a question of time until Canada will break up the Canadian beef trust by admitting American beef free of duty. At the present time Canadian pay even more for their meat than do Americans although Canadian cattle are cheaper than American cattle. This is conceded to be due to the fact that Burns and the Swifts have so long controlled the Canadian beef and hog market.

A local market with the price to compete with outside buyers is what we want.

"The Tirolean Queen" To be Presented

Mr. C. F. Tollerup is organizing an opera company to play the very pretty little mythical opera entitled "The Tirolean Queen."

The scene is laid in Switzerland in old Tirol which place is unsurpassed for its picturesque scenery. The story is one of children out "Maying" and attending to their flocks. They decide to elect a queen, but in doing so their flocks stray away. The children go to find them leaving their queen behind and she is stolen by gnomes. She escapes and attempts to find her way home but becomes lost in the woods, fairies however come and escort her home.

Ira Harris and his bride formerly Miss Roxie Remington, returned Saturday night. They were married a few weeks ago in the Salt Lake Temple and spent their honeymoon with their relatives and friends. Upon returning it was said Ira could not wait until he had visited his bride Don Wall and seen his twin babies. Whether this was to get pointers or not we could not say.

FACTORY EXTENSION IN WESTERN CANADA

A Winnipeg Paper States That the Time Has Come to Revitalize the East in Manufactures

The Toronto Star recently quoted a Winnipeg paper on the subject of manufacturing development in the West as follows:

Winnipeg, Sept. 27.—"We have no quarrel with the view that there is inherent antagonism in the West against manufacturers as a class. Men with political purposes to serve are careful to foster such a spirit. It should not, as a fact, be a matter of politics at all. There are sound economic reasons why manufacturers who have, perhaps, not unreasonably to move, centred their activities almost exclusively in the East, should now begin to turn their attention, with more seriousness, to the needs of the West. The West has ceased to be a great grain field only. Big cities have sprung up on the plains, the development of natural resources has been proceeding apace, our agricultural population has grown amazingly in recent years. These cities and towns of the West need manufacturers to round out their civic life. The basis of every community is rightly acknowledged to be agriculture, but no centre can achieve its true greatness if it is to remain entirely dependent upon agriculture. There was a time in the West when population was sparse, raw material not easily obtainable, and labor difficult to procure. Manufacturers were then reasonably justified in refraining from entering upon such ventures. But that day has passed. Every year sees the manufacturers' Western market increasing."

In this connection the Canadian Courier in an editorial article comments with approval on the location by Eastern Canadian firms of branch factories in the West.

"Strangely enough," says the Courier, "nearly all the manufacturing industries in Western Canada have come from Eastern Canada, not from the United States. When an American firm establishes a Canadian branch factory it is placed in the East, seldom in the West. The American wants to be in the big centres of population. He is not looking so far ahead as the Canadian manufacturer, preferring immediate returns."

"All the flour milling concerns in Western Canada were founded by Eastern capitalists, with a big mill in Moose Jaw as a notable exception. The same is true of the cement mills, most of which are now controlled by the Canada Cement Company. The Diamond Plant Glass Company, at Red Cliffe; the Dominion Bridge Company, at Calgary; the Stuart-Wood's Bag Company, Alaska Bedding Company, and Sherrin-Williams Company, at Winnipeg; the Quaker Oats Mill, at Saskatoon; the Copp Store Works and the Berlin Bedding Company, at Fort William—all these and many others may be mentioned."

"The situation is pleasant. It spells unity of feeling and unity of interests between the West and the East. It speaks a development in industry of a national character. What the three transcontinental railways and the national banks have done to unite East and West will be completed by our progressive and patriotic manufacturers."

It has suited some people to represent Eastern manufacturers as competing against those in the West, and striving to belittle the development of their Western rivals. As the foregoing articles indicate this is far from the truth. Many of the best Canadian firms will eventually do the west with branch plants as long as the present reasonable protection against free imports from their vast and highly specialized rivals south of the line is maintained.

GROWTH IN SOURIS

According to the census of manufacturers for Canada, 1911, which has been issued from Ottawa, Souris has three manufacturing establishments. Their forty-two employees earned approximately \$20,000, or an average of \$474 per year for each employee. This is a very high average and shows that the workmen in Souris are well paid. The three employers of Souris had \$220,000 of capital were able to produce products to the value of \$254,000. Not only did this money circulate in Souris as the point of shipment of these products, but the \$20,000 of wages circulated many times over through the purchases of the working men over the counters of Souris merchants before it went to the bank as capital. It is the hope of business that accounts in great measure for the growth of this fine prairie town. In the next ten years if Canada's present trade policy continues in force it is safe to predict that Souris' manufacturing industries will have doubled by 1921, wages paid and output.

Raymond Girl Plays With Professionals

Lethbridge is proud of the little leading lady of its amateur plays, Miss Dorothy Young, and everyone who has seen her in the "Country Girl" and "San Toy" will be pleased to know that her ability is appreciated by those on the stage as well as by those with whom she is a favorite. Eugene West favorite, at the Savoy Theatre, New York, acknowledges Miss Young's ability as an actress, and has arranged to play with her in "Blanch" a one act playlet at the Shermans theatre on Wednesday night and night. Mr. West is with the Frisken circuit for his second season, and those who have seen him here already this week know why he is a favorite. Miss Young will thus have her first opportunity to show her worth; for it will be her first opportunity to play with professionals.

Owing to Miss Young's parents having objections to her playing the part called for in the above mentioned piece, she will not play the part as it required the smoking of cigarettes and was a role of an underworld character.

Rev. Tomlin's of Raymond, will preach in Knox church next Sunday. At the evening service the regular monthly musical will be rendered. "The Daughter of Jairus" will be the selection of that occasion.

PAY-ROLL FARMING

A Successful Mixed Farmer—The Development of Urban Centres

The location of manufacturing industries in certain Western towns is affording a ready market for the diversified and profitable produce of the mixed farmer. Today one of the farmers in the C.P.R. irrigation block in Alberta is able to carry practically the entire running expenses of a big farm out of the proceeds from his dairy, poultry and garden. This diversified farmer has the advantage over the straight grain raiser in that he has many days in the year when he is receiving cash in settlement for his produce as against only one day when the grain farmer sells his grain to the elevator.

Pays as He Goes

The farmer in question lives near Gleichen. He has spent some \$2,000 on improvements, has 125 acres in crop, 75 acres summer fallowed or broken for next year, and 70 head of stock. He employs two hired men, one all the year round, and the other for the summer season only. The fact that he favors mixed farming enables him to pay his way as he goes. With from 12 to 18 cows in milk, his average cheque from the sale of cream is \$110 per month. He has eight work horses which, besides his own use, have netted him \$900 this past summer. He sold in June \$1,200 worth of hogs, and will have two more carloads ready for shipment in November, he sides keeping the household in meat—no small item this, for besides his hired men he has had extra men around all summer, building.

Farm and Factory Interchange
As factory chimneys increase in Calgary, Medicine Hat, Edmonton and elsewhere the possibilities of mixed farming will be still greater. Every new factory of any account means at least one hundred more mouths to be fed. Unlike the grain farmer, the mixed farmer cannot ship his products over great distances because of their more or less perishable nature. It is the factory worker and his family who must absorb the greater part of the products of the mixed farmer. All economic history proves that the prosperity of the people is greater where there is a constant and convenient interchange between products of the farm and the factory. This is the aim of Canada's present trade policy, and that it is succeeding is borne out by such figures as are quoted above, and many others which could be cited from other parts of Western and Eastern Canada.

MIXED FARMING

What a Grain Dealer Says About a Convenient Home Market

Mr. James Carruthers of Montreal, one of the largest grain dealers in Canada, at the conclusion of his recent trip through the West said that the farmer in the West depended in the future for success in taking up mixed farming. He stated that he had urged this wherever he went and he plainly could see the danger under present conditions if there was a failure in the wheat crop.

Large Packing Firm
Mr. Carruthers said that about Edmonton there were many large packing firms and that farmers were beginning to raise pigs and sheep and cattle and use the coarser grains and oats in feeding them, and he said that it was paying them well. Mr. Carruthers stated that at present, the farmer was getting some protection.

The railway companies, said Mr. Carruthers, have seen the importance in educating the farmers to take up mixed farming and have spent thousands of dollars on it. They understand that the good name of the country depends on it and that prosperity will follow which will attract more people to the country.

With the steady development of industrial and wholesale centres in Western Canada there is an increasing market for the products of mixed farming. Apart, however, from this convenient home market, which is steadily increasing in size, many of the products of mixed farming through modern cold storage facilities, can be shipped advantageously to foreign countries.

SUGAR IN THE STATES

Reduction in Price Was Brought About by Competition

Practically the only article of uniform consumption that shows a big decline in price in the last year in the United States is sugar, the cost of which is about 8 per cent. lower than it was in 1912. In fact the price of sugar has not only declined in 1913 as compared with 1912, but it is the only commodity in a big list which has been secured by the United States.

Buy at Home

We no that there are several Houses sending out price lists of groceries we believe you can save money buying at home. The following is a price of some of our lines. Remember every artical guaranteed, if not satisfactory your money will be refunded.

SERMONS

O. F. URSENBACH

Tis the wink of an eye, tis the draught of a breath.
From the blossom of health to the painless, of death;
From the gilded salon to the beir and shroud,
Oh, why should the spirit of mortal be proud.

God "hath made of one flesh and blood all nations of men." But what an inconsistent vista is presented. The uneducated man is too frequently exalted to eminence while his more cultured and refined employee is held far below the mediocre.

In his egotism the book worm often soars to lofty pinnacles, having nothing in common with those whose quiet life of experience and soul expansion measure infinitely higher than he. Instead of man being measured by his soul, he is too frequently measured by his soul, he is too frequently measured by his commercial usefulness. The wealth of the world is the criterion of judgement while the God given attributes and temperaments that tend to give man the honest judgement he has merited, are ignored. Would it not be far better for the soul of any community, if the egotistic would come down to their true balance. A little story may be given here by way of illustration:

The parish priest of Austere climbed high up in a steeple, To be near God where he might haph his words down to men.

In sermon script each day he wrote what he thought came from heaven.

And threw it down on the people's heads two times one day in seven.

In his age God said: Come down and die. And he cried from the steeple: Where art thou Lord? And the Lord replied: "Down here among the people."

How much more consistent it would be for the brotherhood of man and advancement of community growth, if man would pattern a little more after the humble example of the Master Teacher, who in order to rise above all things was willing to descend below all things. We should remember after all, that:

"The wise and the foolish, the guilty, the just, Together must mingle their bones in the dust."

Miss Dorothy Young, of Leth bridge will take part in the opera to be given by the 2nd. ward "The Chimes of Normandy."

James Cestley and wife are again in our midst, as pleasant as ever, after a month spent in Utah with friends and relatives.
